- Nothing significant to report.

Cal OES SOUTHERN REGION

Simi Valley Nitric Acid Fire, Ventura County, SPILL: 19-4078 **(Final)**

At 0658 hours on 06/25/19, the California State Warning Center (CSWC) received a report from Ventura County Fire Department regarding a nitric acid fire burning in Simi Valley, Ventura County. The fire is located at an industrial plant named RSA Equipment Products. Spill Report 19-4078 was generated from the information provided.

Per the Cal OES Duty Officers:

- At 1549 hours on 06/25/2019 the evacuation and shelter in place order was lifted.
- Response resources are leaving the scene.
- Ventura County Environmental Health and a private hazardous waste clean-up company are taking the lead on recovery.
- The fire was knocked down at 0728 hours.
- A 300 foot area has been evacuated around the plant.
- A quarter mile area is under a shelter in place order due to a cloud of Nitric Acid. The notice was delivered to the public via a VC Alert.
- A secondary VC Alert will be given to notify the public when the shelter in place order is lifted.
- No injuries have been reported.
- No hazardous material run-off at this point. Ventura County Fire Department will continue to monitor storm drains.
- Ventura has twenty fire units on scene and is not asking for assistance. Resources are beginning to be released.
- Ventura County OES agent is on scene.
- The 118 Freeway is nearby, but is not affected.

Notifications were conducted per CSWC standard operating procedures.
